Ceramic Diffuser

These exclusive T.House ceramic diffusers are a natural, environmentally friendly, air and fabric freshener.

Use them throughout your home for their gorgeous fragrance, to freshen clothing, repel moths and keep insects away. The stone works by soaking up the oil in it's porous clay and then through time the fragrance is slowly released.

"It's always been important to me that I don't let age define me. They say age is just a number and that really is true.

Create the life you want and remember you are never too old to set another goal or dream a new dream, just do what makes you happy."

- Tina Nettlefold
