Father's Day is this weekend (where did the year go??) and with many cities around Australia in lockdown, you need to be ordering last minute gifts ASAP.

Whether you want to go all out for 2021, or stick to the old favourite Father's Day presents, the time is now.

Father's Day falls on Sunday, September 5 this year - AKA this Sunday - and there are still some postage delays in certain states you'll need to deal with.

For those of us working within a budget this year, gifts under \$100 are the best way to go, and we've tracked down some that dad will seriously love.

From fancy whisky, to tech gadgets, and even a new pair of socks, we've got budget Father's Day gifts in the bag.

And if you're looking to *really* treat dad this year, [check out our luxe Father's Day gift guide](#).
